

ARYAN PRAJAPATI

FULL-STACK DEVELOPER INTERN

aryprjcoder@gmail.com | 9316369351 | Ahmedabad, Gujarat

PROFILE SUMMARY

Full-stack developer intern with 4 months of hands-on experience at SPConsol. Designed and implemented custom REST APIs, executed full CRUD operations using Axios, and contributed to live client projects using React JS, Node.js, and SharePoint Framework (SPFx). Currently pursuing a Master of Computer Applications (MCA) degree with strong command over API development. Seeking a challenging role where technical expertise can be applied to deliver impactful solutions.

-

EXPERIENCE

Full-Stack Developer Intern | SPConsol

Dec 2025 – Present

- Worked on live client projects using React JS, SPFx (SharePoint Framework), and Node.js
- Consumed fake APIs and implemented full CRUD operations using Axios for data fetching and state management
- Developed custom REST APIs in Node.js for Hospital management
- Built authentication API using Node.js as part of MERN stack implementation
- Debugged, tested, and deployed features on live websites
- Successfully completed 4-month internship with hands-on full-stack development experience.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

- DCSIT College, HNGU

Bachelor of Commerce (B.Com)

2021 – 2024

- TSR Commerce College, HNGU
-

PROJECTS

1. Campus Recruitment System | PHP, MySQL, HTML, CSS, JavaScript

- Developed a web application for managing students, companies, and admin operations
- Implemented student registration, login with session management, and profile viewing functionality
- Designed an admin dashboard to manage student records and company details efficiently

2. Authentication API | Node.js, Express, MongoDB, React JS

- Built a secure authentication API with user login, registration, and token-based authorization
- Integrated with React JS frontend for complete MERN stack functionality

3. Hospital Management API | Node.js, Express.js, REST API

- Built a REST API for full CRUD operations (Create, Read, Update, Delete)
 - Used Axios in React frontend to consume fake and custom APIs
 - Implemented HTTP methods (GET, POST, PUT, DELETE) with proper error handling
-
